

How satisfied were you with the event?

47 responses

How relevant and helpful do you think it was for your job?

47 responses

What were your key take aways from this event?

29 responses

Pests are a real problem.

Self evaluation of my body language while communicating.

Networking with other code enforcement officers

Pest removal and communication tools.

All the speakers had a lot of information that can and will be helpful on the job

I liked the speaker for Mold, Hoarding, and pests.

I thought that the air quality/mold was very informative. I also really liked the pest identification and the things to watch out for preventative measures to take.

Lots of valuable information

Communication was good

Hoarding

Excellent speakers. All the training was educational.

All very good

Hoarding, pest control, mold, and communication

There was a lot of information pertaining to code enforcement, and the speakers did a great job presenting that information.

All the topics were good but I got the most out of indoor air quality, marijuana and pest control.

Mold and infestation information.

Communication and workplace violence strategies

Collaboration and networking were the most valuable aspects

The marijuana update was very helpful. The mold and pest presentations were interesting, but not relevant to my job (thank goodness!).

Municipal Fire Inspectors have a right to inspect public school facilities at a reasonable hour and forward any violations to the state fire official. Very little can be done directly by a housing official to remove non-visible mold from a dwelling, but an air spore test can be recommended. Most communities are facing similar frustrations in response to the newly enacted marijuana regulations.

communicating effectively with team members and those outside the office as a township representative

The variety of speakers and the frequency that they changed. It kept us on our toes!

Better understanding of mold issues and tactics for improving communication

I really enjoyed all the speakers. I learned something new from each.

All the speakers were very knowledgeable and I learned a lot.

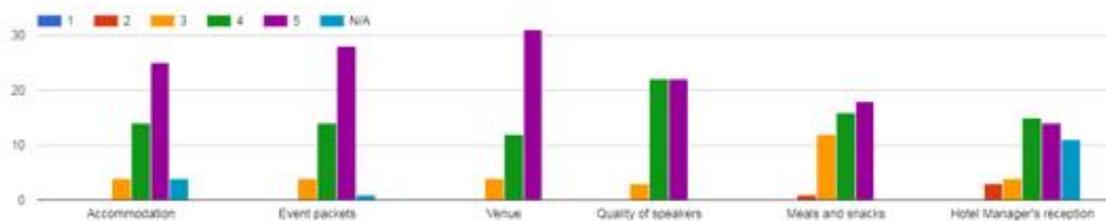

Mold/water damage expenses and bugs are awful

The similar problems different code people face

Mold/Air Quality, Pests and Communication

Police and Fire were invaluable connecting Police, Fire and code as a team in identification.

How satisfied were you with the logistics?

Additional feedback on logistics

Well planned and thought out. Kudos

Great location

good location

Unable to swim or workout

Coffee on second day...

Coffee is needed on every morning

No complaints!

I was disappointed that the pool and fitness area was closed.

N/A

Packets - individual presentation info (copies) would be amazing

possible different city in the future

4 hours for the communication lecture was a little much.

The breakfast in the morning isn't the greatest. The eggs and sausage were disgusting.

The pool and fitness center were closed at the hotel

It would be helpful if there were some non-carb non-sugar snacks to choose from.

Over all great job

Moving date

Should change hotels, maybe Traverse Cityity

I think it would be good to have a 5 or 10 minute warning card that someone could hold up in the rear of the room to keep the speakers on time.

Hotel was very nice, wish the pool and rec was open. Would prefer healthier options to snacks, ie fruit. No drinks in conference room Friday morning?!

Very satisfied

Hotel accommodations food and wait staff were top notch.

I feel bad for her situation, however there is not much code enforcement can do to resolve this problem.

We can alert the Fire Marshall or APS, beyond that in owner occupied our hands are tied. Meals were wonderful. Friday morning there were no refreshments (coffee, tea or pop) no fruit or pastries. I realize breakfast was offered by the hotel but some did not stay at hotel and others missed the breakfast.

centrally located, and a very nice hotel.

Hotel was great

Breakfast food was terrible.

none

na

NA

Nice rooms

I like Mt Pleasant, but would be willing to travel to another location like Kalamazoo or Traverse City.

As a local to the area of the venue, I did not utilize the hotel for accommodations. Conference quality was very high overall. In my opinion, too much food was offered on Thursday and not enough food was offered on Friday.

Although the speakers were well prepared and quite knowledgeable. The discussion on hoarding was left a little open. for someone that has been dealing with the issue for such a long period of time and is constantly dealing with and helping others cope seems as though there would be more concrete ways to share with the group. The meals were hot and flavorful, although the snacks could be slightly improved.

The Manager's reception is a nice feature and a good opportunity to wind down and communicate about the days class. Although the cheese sticks were luke warm and a little stiff.

satisfied

The location is centrally located. There is a lot of options to go after class and for attendees who bring their families.

None

Overall, a good venue. Very friendly.

Water pitchers were not being refilled unless staff was asked. Lunch was very good. Room was comfortable. Great table setup.

over all the coordination of the event was perfect

This was a nice place to have the conference.

Food good, room comfortable, av all worked so could hear.

I thought majority of the speakers were good, but the speaker on hoarding and marijuana I thought were not engaging and the material did not help much.

Close to restaurants and express way

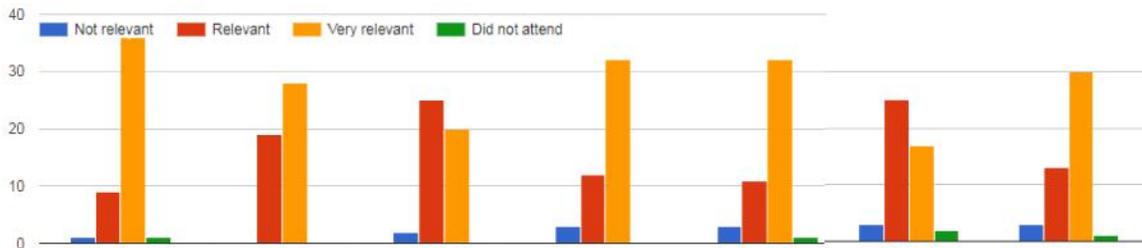

I found the food for the breakfasts very poor. The lunch on thursday was good, however, luke warm.

Need Coffee on each morning of the event.

no answer

room was great & spacious - did need some vegetarian food for folks like me

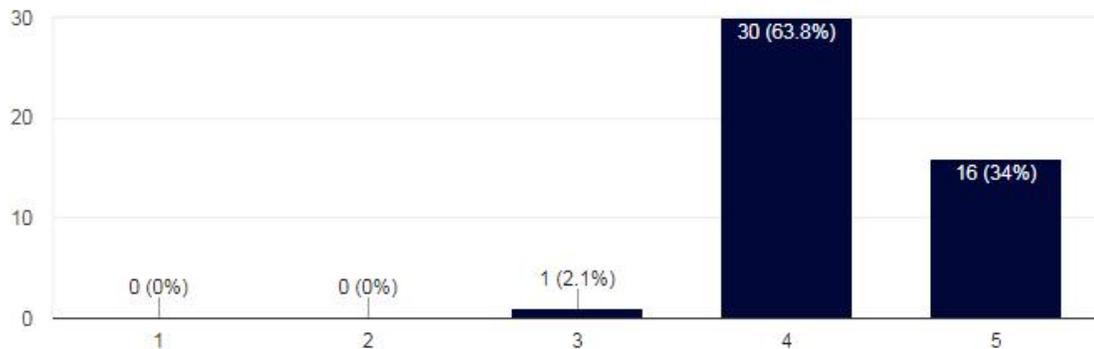

Which sessions did you find most relevant?

Existing Structure Hazards/Indoor Air Quality	Ideas to Develop a Partnership	Active Shooter and Safety	Communicating for Results	Pest Identification, Prevention, and Eradication	Medical Marijuana Update	Hoarding
---	--------------------------------	---------------------------	---------------------------	--	--------------------------	----------

How satisfied were you with the session content?

good

For the cost of attendance this was a good event.

Well done!

It was a great event with lots of information

I thought it was the best MACEO event I have been to. I liked the subjects. I also like how most presentations were short and to the point. It kept my attention instead of having a long drawn out class on one subject.

The conference was organized and the speakers provided lots of useful information

Its at the top

Went well

Thanks for another great conference

Best one all around

Thursday afternoon's session was a bit long.

The speakers did a very good job. They were very interesting.

Overall the program was very informative! The communications section was long, but interesting.

Very well organized & spaced out between sessions

All sessions were very relevant. I feel you did an exemplary job of choosing relevant topics. As with any speaker to this particular group each topic would have been more valuable if it were tailored specifically to our profession in a greater degree than they were.

Great variety of speakers and subjects

Great job! This is the one conference I go to each year and have never been disappointed.

Active shooter content was good but speaker appeared to simply read through the slides. Could have used more examples.

Air quality and pest presentations were both very informative, on point, and entertaining.

Pest speaker needs more time.

I thought the pest presentation was disappointing in that it was just an overview. I would have liked more detection/prevention/removal insights than what was given. The communication seminar was unnecessary. I have been to many communications classes in the past.

Overall it was very good content. I look forward to next year's conference.

this time seemed to move very well, one right after another

Any overall feedback for the event?

Great event (2)

The Thursday afternoon session was somewhat tedious and I am not sure took into account the limits of what we can and can't do.

good conference

Coffee 2nd day...

Looking forward to next year

Well planned event, kudos!

Great event. Thank you for your hardwork.

This years event was awesome

Several of attendees had issue with crunchy food during the training sessions.

The new secretary is C-U-T-E!!

The Event was put together very well. All topics were very informative.

Well organized and informative. Great event to network and share ideas.

Real Good

Breakfast was terrible, but the event was helpful and the hotel was very nice.

Piggot's presentation was not well received. He stammers and his slide show did not hold my interest

Very interesting and informative. I really enjoyed the networking session.

If feel this was an excellent and valuable event. You have done a commendable job. I feel the event could be improved upon to allow greater than an hour for social networking. This is often the most valuable aspect of conferences I attend. Without being able to take lodging, I'm greatly relegated to networking within the time allowed for the actual conference. This is as much a criticism of my municipality as it is of your schedule.

Many thanks to the board. One of the best conferences that I have attended in the past 28 years! Well done!

Again, great job!

The best one I have been to.

Everything was well organized and many thanks for everybody

I like that we covered so many topics this year- it made it go by fast and kept you awake/involved

Well organized and the networking is very important.

Overall, it was a good event. I think the topics and presenters were appropriate for our current work environment.

Coffee on Friday Morning

FANTASTIC
